1. Introduction

2018 is almost here... Let's prepare and be auspicious together.

We step into 戊戌 WuXu, Earth Dog on the 4 Feb 2018. It starts from 5:41am 4 Feb 2018 and ends at 11:30am on the 4 Feb 2019.

This book will improve your house's luck. If your house is already having good Feng Shui they will make it even better, you will see much better career prospects and opportunities and are able to maximize your wealth accumulation. If your house's Feng Shui is bad they will help you to reduce the disastrous effects and can help you to avoid calamities.

It is important to learn about the locations of the annual and monthly Flying Stars (Xuan Kong Fei Xing), reputed to be the most powerful systems in the study of Feng Shui. Annual stars stay in a sector for the year and shift to another sector in a pre-determined pattern in the following year. Monthly stars change positions on a monthly basis.

The star numbers run from 1 to 9 and each flying star number possesses auspicious or inauspicious meanings. In period 8, (2004 to 2024) the five lucky star numbers are 8, 9, 6, 4 and 1 while the unlucky stars are 2, 3, 5 and 7. In general, when the combination of the annual star and monthly star in a compass sector for a particular month is made up of the good stars (8, 9, 6, 4 and 1), the particular sector is said to be good and will bring good luck to its occupant. But when the bad stars congregate in the same sector, some serious issues might happen and it is important that you vacate the room for the month. If this cannot be done, you must install Feng Shui cures to suppress them or they will bring misfortunes of the most severe kind. However, you do not have to worry if the bad stars fly into a storeroom, toilet, garage or a missing corner because their negative effects are contained and dissolved. The effect, whether good or bad, is lesser when the number appears alone.

You will need to look out for afflicted sectors and take the necessary steps to suppress the inauspicious stars or enhance the auspicious ones.

How to improve your house's luck?

Use a good compass to accurately determine the facing direction of your main door of your home. Then refer to following sections with all the arrangements and charts and use them wisely. You need to set your priority right in order to choose which Feng Shui arrangement to use to get what you desire. For example if you want to be richer, then you choose the wealth enhancing arrangements, if your health is not in good shape then choose the health enhancing arrangements.

~ You must carry out these changes in TWO STEPS. ~

STEP 1 – Harmonize your home

The first step is to harmonize your home. Your house needs to be in harmony before you can enhance what you needed most.

You need to do the following.

1. Hold your compass standing behind your main door facing out and take the reading. This is your house facing.
2. Find out your house's period. You need to know when your house was built or when was the last major renovation, last transferred of ownership or when was the last time you changed your stove (for company, your company sign board) in order to determine your house's period.

Period 7 - from 4th. Feb. 1984 to 3rd. Feb. 2004

Period 8 - from 4th. Feb. 2004 to 3rd. Feb. 2024

3. Go to “**House facing and its Feng Shui arrangements**” section and put in the arrangements.

STEP 2 – Choose what you want

The second step is as simple as to choose what you want.

After you have harmonized your house, you can then choose your Feng Shui enhancements based on your priority. You can choose to enhance your wealth or enhance your health or both.

**** Note: This book only caters for period 7 and period 8 houses.**

About Horoscope, there are two types of forecast.

The first type is based on Animal Signs alone and its ShenSha 神杀.

The second type is using a combination of Chinese Astrology, Horoscope, Zi Wei Dou Shu (紫微斗数) together with Ba Zi Analysis (子平八字). This forecast will analyse the 10 divisions of each Horoscope Sign according to the 5 element (Wood, Fire, Earth, Metal and Water) and 2 type of favorability according to the day master (Strong 旺 /Extreme Weak 从 and Weak 弱/extreme strong 专). This means each animal sign will have ten different categories. This forecast will generally be better than most basic forecast that only analyses based on 12 Horoscope Signs.

Below is a sample used in 2016 in order to harmonize a house facing West 262.6°-292.5° with a wealth FengShui arrangement.

Afterword

The information in this book is a guide to the art of Feng Shui which also touch on your BaZi Four Pillars on destiny, but since every individual need, situation (external environments and interior of individual home or office) and Four Pillar is different, every arrangements and the affects will be different. Feng Shui experts have their own personal methods of divination and there are no hard and fast rules to define the practice.

Without years of experience and training, the ordinary person cannot function at the same level as the master. However, much of Feng Shui is common sense fused with a particular Chinese understanding of the nature. It is not always possible to create an ideal house or identify the perfect plot; imperfections and problems are to be expected, but do not be put off. There are always changes for improvements. This book will guide you on how to make you home a better place.

Wishing you and your family all the best.
